sega is taking gamers where gaming is going

Behold the future. Not just  
the future of gaming, but the future of  
mankind. That's right. Because Sega Dreamcast's built-  
in 56k modem means gamers can play tons of Sega Dreamcast  
games across the internet right now. (And it's upgradable for DSL  
and broadband, of course.) Gamers can plug into any phone line  
and access millions of wonderful people across this great nation  
who want nothing more than to mop the floor with them.

And, the awesome 128-bit graphics means it all  
happens in jaw-dropping detail.

# BLACK & WHITE™

From Lionhead Studios, developers of Populous, Theme Park and Dungeon Keeper, comes Peter Molyneux's most ambitious project to date: the highly anticipated, multi-genre Black and White. Black and White is a complex game with strategy and role-playing elements that allows gamers to play god over a world inhabited by various tribes. As a god, gamers must maintain peace and harmony over their kingdom while discouraging rival sorcerers from rising to power. Gamers cannot interact directly with their tribes; however, they can influence the tribes with magical spells and their chosen "Titan"—a cross between a child and a pet who acts as a messenger and responds to training as well as environmental influences.

- A compelling single-player game that challenges gamers to maintain peace amongst the tribes
- Massive multi-player online action drops gamers into a vast world where they battle rival sorcerers and socialize their Titan with other gamers' Titans

# NBA 2K1

It's nothing but Net...Internet, that is. NBA 2K1 allows gamers to hoop it up over the Internet through their Sega Dreamcast! And also new for 2000 is Franchise Mode where players can transform themselves into the GM. With NBA 2K1 in the lineup, Sega Sports continues to break new ground in this category. So go catch net on the net!

- Live Internet console gaming for up to 4 players at each end. Opponents are everywhere!
- More animations and improved player models!

# SEAMAN

Communicate with and grow Seaman, a "half fish, half man"—and a whole of fun! He's a picky creature, one that wants to talk with you. But be careful, if you should ignore his needs, don't be surprised if Seaman talks back, gets moody or even makes fun of you!

- Unique AI and voice recognition technology – over 10,000 vocal responses
- Microphone peripheral allows gamers to talk to Seaman

# EIGHTEEN WHEELER

18 wheels, 20 tons of cargo, and 10,000 miles of highway. Looks like you're gonna need more coffee! Travel down the highway behind the wheel of one of five big rigs, each with unique levels of speed, torque and toughness! And race against a rival big rig across the nation in a no holds barred driving battle.

- Four stages of truckin' action that take you from New York to San Francisco
- Realistic driving system – the heavier your cargo, the slower you will accelerate and brake!

# OUTTRIGGER

A private enterprise, INTERFORCE, has been established to fight terrorism around the world. Only a handful of people who successfully undergo rigorous training and pass a test will be permitted to actually engage in these high-tech missions. And few will achieve the title of glory granted to the chosen!

- Members can recruit players and create "teams" online
- Four fast-action ways to play!
